

The Complete Student Health Solution.

Designed for student health and counseling centers that need both a clinical and administrative software solution, NuevitaTM features a CCHIT Certified[®] electronic health record (EHR) that interfaces seamlessly with powerful clinic management tools, allowing your student health center to stay in control of clinical documentation, scheduling, immunization compliance, reporting and even insurance billing.

Focus on care, not administration

Nuevita gives your health or counseling center complete freedom to focus on caring for your students. As a secure online solution, you don't have to worry about maintaining servers, managing backups, or thinking about down time. Nuevita also frees you from re-typing data, tracking lab results, or spending so many hours on the phone.

Features include:

- Template and encounter type library
- E-prescribing
- Secure electronic faxing
- Lab interfaces
- Appointment scheduler
- Immunization compliance tool
- Student Web portal
- Links to campus information system

Your health center...connected

Share information with other care providers, lab systems and the Bursar's office simply and quickly. Allow students to set their own appointments online via Nuevita's student Web portal, and contact them individually or en masse via our secure messaging system. View updates to your clinic's schedule in real time. Want to tap new sources of revenue? You can even submit claims to federal, state and commercial payers electronically using Nuevita.

CCHIT Certified[®] is a registered mark of the
Certification Commission for Healthcare Information Technology.

File claims hassle-free

Whether you want to file to a single payer or many, Nuevita offers a comprehensive yet easy-to-use billing solution. With more than 10.3 million claims processed, we are the premiere electronic billing system for college health. We offer a multitude of tools to help you efficiently manage and track insurance claims, and increase your health center's cash flow, including preloaded and updated ICD-9, CPT® and HCPCS codes. Plus, because Nuesoft is an approved, HIPAA-compliant clearinghouse, we can speed up your reimbursement by filing electronically direct to almost all government payers, both state and federal. In addition, we have negotiated partnerships with third parties to efficiently file your commercial claims.

Reasons to Choose Nuevita:

- **Affordability** - Free ongoing support, free upgrades and competitively priced subscription rates.
- **Simplicity** - Intuitive and easy to use. No servers to maintain and minimal IT involvement.
- **Efficiency** - Nuevita streamlines your staff's workflow and reduces time-consuming administrative tasks, from compiling reports to filing.
- **Reliability** - Our technology ensures the safety of your data in the event of a disaster. Our servers average more than 99.997% up time.
- **Experience** - Nuesoft has been involved in college health since 1993. We specialize in Internet-based mission critical applications and we house and maintain more than 1.5 million student records.

The image displays three overlapping screenshots of the Nuevita software interface. The top-left screenshot shows a patient's encounter page for 'Black, Jacob', including demographic information, allergies, and a list of orders. The bottom-left screenshot shows a detailed view of an order for 'HEPATITIS B, ADULT (90743)', with fields for reminder, modifier, notes, and indications. The right-side screenshot shows a dashboard with various icons for 'Appointments', 'Patient Information', 'Ticket', 'Reports', 'EHR', 'Balance Transfer', 'Upload', 'Analysis', 'Settings', 'Practice Setup', 'Help', and 'Immunizations'.
